

HONEYMOON TOUR

BRITISH COLUMBIA, THE ROCKIES & HAWAII

554-11

This honeymoon starts from Vancouver, goes through Canada (British Columbia) and proceeds to French Polynesia.

WESTERN CANADA

Along this exciting itinerary, modern and friendly Vancouver and quiet Victoria will turn into the wild and uncontaminated nature of Vancouver Island, where you can observe the spectacular fauna of this area through exciting excursions. Another unforgettable experience will be crossing Inside Passage by ferry, a true to its mini-cruise along a protected waterway teeming with wild life both in its waters and along the coasts of the mainland and numerous islands which protect it. From Prince Rupert, the port of arrival, we'll take another ride full of emotions: we'll go South to the great parks of the Canadian Rockies, passing through an area of primary importance for native populations ("Indians") along Skeena Valley, finally reaching the Rockies, announced by the view of Mount Robson, and then we'll arrive in Jasper. From here we'll start a tour to the enchanting lakes, majestic glaciers, to the Rocky Mountains trails, following perhaps the most scenic road of the world, the Icefields Parkway;

FRENCH POLYNESIA

This is an archipelago of islands in the Pacific Ocean, of which Tahiti is the biggest one with the capital of Papeete. Four million square kilometres of ocean cover the area of Tahiti and its islands, an area which is as large as Europe. However, the actual land area above sea level is only 4000 km².

BORA BORA

So much has been written about Bora Bora, but it's still difficult to describe its magic. The novelist James Michener simply wrote that Bora Bora is "the most beautiful island in the world". Hibiscus bushes and trees enrich all the hills and valleys, and the underwater world is a kaleidoscope of multi-colored fish flowing through prismatic turquoise water and the sunbeams dancing in the corals.

MOOREA

This is the favorite place for all those who desire to see genuine Southern seas. Here you'll experience the wild experience of a casual vacation, where your shoes will become useless most of times. Enjoy being barefoot amidst white sand beaches and lagoons and, of course, within the characteristic atmosphere of a Tahitian resort.
