## **BRITISH COLUMBIA AND ALBERTA WEST COAST AND THE CANADIAN ROCKIES**

This proposal is a version of what we consider our "flagship" according to the success it has among our guests. We did our best to keep the same quality of service while lowering down the budget rate.

We start from Vancouver, a bright and modern city on the West Coast of Canada, and a true *melting pot* of ethnicities and cultures. We will proceed to Vancouver Island, the most beautiful island in North America, recognized as the Top North America Island by Condè Nast Traveller. As large as 2 Italian regions, it deserves its international fame for the beauty and variety of its places and almost incomparable scenes of its nature, as well as the magnificent fauna that populates its forests and its waters: among the many species there are grizzlies and black bears on earth and various species of whales, including orcas and dolphins in the sea. Victoria, the current capital of British Columbia, is situated on the island too. Another unforgettable experience will be crossing Inside Passage by ferry, a true mini-cruise along a protected waterway teeming with wild life both in its waters and along the coasts of the mainland and numerous islands which protect it. From Prince Rupert, the port of arrival, we'll take another ride full of emotions: we'll go South to the great parks of the Canadian Rockies, passing through an area of primary importance for native populations ("Indians") along Skeena Valley, finally reaching the Rockies, announced by the view of Mount Robson, and then we'll arrive in Jasper. From here we'll start a tour to the enchanting lakes, majestic glaciers, to the Rocky Mountains trails, following perhaps the most scenic road of the world, the Icefields Parkway.
